

hydroblade® Nozzle System

The choice of perfection

stainless steel

40 %
more efficient!

The professional nozzle system made of stainless steel

- Strong and uniform flat jet with extraordinarily narrow jet depth
- Application: High pressure and steam jet cleaning
- Suitable for existing systems
- Nozzle spray angle: 0°, 15°, 25°, 40°
- Max. allowed working pressure of 400 bar
- Suitable for temperatures of up to 150 °C

Optimally equipped: Nozzle holder included. Easy to attach to the lance.

The **hydroblade®** set consists of nozzle holder, 6 equal nozzles, and corresponding O-rings.

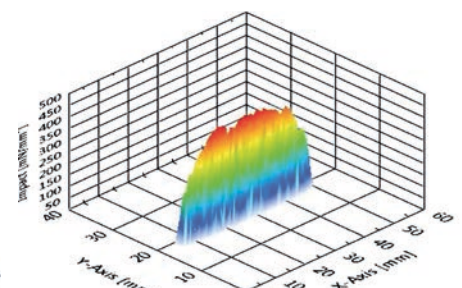

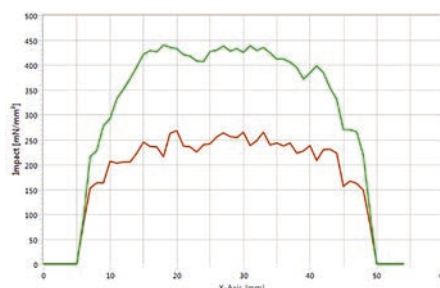

Nozzle: Body made of stainless steel and insert made of **hardened stainless steel**.

Technical data

max. pressure	400 bar, 5,800 psi
max. temperature	150 °C
material	stainless steel

hydroblade® Benchmark

hydroblade® flat jet nozzles feature a homogenous liquid and pressure distribution. Highly efficient jets are achieved with spray angles of up to 40°. Thanks to the flow geometry of the nozzles, a compact and controlled jet is generated.
